

## Our Door is Always Open

You consistently show your dedication to Penrose-St. Francis Hospitals through your hard work and commitment to delivering whole person care. That's why when there are questions or concerns, we want to hear from you.

- Your leaders, from your manager and director to our CNO and CEO, are here to listen to your feedback. 
- Talking with leaders is easier than you may think. If you bring a challenge to leaders, you can work together to create an action plan to seek solutions. 
- By keeping open lines of communication, you and your team make PSF stronger, which is crucial in helping us deliver whole person care and serve the unique needs of our communities. 

**Remember:** Your leaders are here to listen to your concerns.

You can also use the “Ask Us” function at **PSFfacts.com** (scan the QR code) to ask questions about unions or anything that is bothering you at work.
